

ABM ALPINE MISSION! THE EXTENSION OF A SKI TRACK OHDZ GRAND - BRHLISKÁ, STRUCTURE SO-07

ABM were recently called upon to participate in an urgent mission on the northern slope of the Chopok Mountain in the Low Tatras in Slovakia.

Plans were rushed to improve the recreational facilities for tourists in this picturesque region by extending its ski slopes and bringing it to a new ski lift station lower in the mountain.

ABM LAUNCH IN SLOVAKIA

Rail line upgrade Žilina - Krasno nad Kysucou, 3 no. River Crossings

ABM are delighted that they have successfully installed their first bridges in Slovakia using Matière Opti-Cadre precast concrete portals. This is also the first application of the modular precast box shaped configuration by ABM in Central Europe.
